About me

I'm a motivated Software Engineering student with a passion for full-stack web development. I enjoy working with technologies like HTML, CSS, JavaScript, React, MySQL, and Git to build meaningful projects. Problem-solving and collaborating with others come naturally to me, and I'm always eager to learn new skills and contribute to exciting, innovative ideas.

Experience

Throughout my journey as a Software Engineering student, I've had the chance to dive into various web development projects. I've built personal portfolio websites and collaborated on web applications, which really helped me sharpen my skills in HTML, CSS, JavaScript, and React, databases .

I One of the highlights has been collaborating with diverse teams. These experiences taught me the importance of communication and teamwork in delivering innovative solutions. I'm always eager to learn, Each experience has been a stepping stone in my growth, and I'm excited about what's next!

1. Developed a personal portfolio website using React.js, showcasing a dynamic contact form and responsive design
2. Real Estate Website (ReactJS): Developed a dynamic real estate platform using ReactJS, featuring property listings and responsive design to enhance user experience.
3. Gym Website (ReactJS): Created an interactive gym website with ReactJS a user-friendly interface for fitness enthusiasts.

and more projects

Education

BSc in Software Engineering
Debre birhan University — (2014e.c-2018)

Relevant Coursework:

Data Structures, Algorithms, Web Development, Database Management, Requirement Engineering, Software testing and quality Assurance, SRS, Mobile Application development, software Architecture and design, Software project management, Fundamental of cloud computing
